ENGADGET (Product review Event)

Problem Statement:

Engadget is a product review event. Participants will be given one of the listed products on the basis of chit system. The task is to review the given product with help of PowerPoint presentation. The presentation must focus on the following:

1. Market Aspects of the given product
2. Technical Details of the given product
3. Competitors

The product will be allotted on Day 1 of Manthan, the presentation will be held on Day 3 giving the participants 2 days to prepare. Only 5 minutes will be given to each participant for presentation.
